About Us

In 2017, Potty All The Time was launched in New York to address the needs of the TLC driving community by providing convenient, clean and reliable public restrooms.

When nature calls, use our toll free number 1-844-POTTY-ALL to coordinate a rendezvous with a Potty unit, or follow us on Instagram or Facebook to see if we're already in your area. If you see us riding by you can also hail us by yelling "Hey Potty Man!"

PATT is a green service. We utilize the Nature's Head composting toilet that uses no water or chemicals. Since #1 never mixes with #2 no sewage is created. And because our units are 99% human powered with a dash of electric assistance, we don't muck up the air you're breathing either.

So whether you drive for Uber, Lyft, Yellow Taxi or neither and you just need to go, give us a try! At Potty All The Time we deliver relief!
